

Measuring for bay windows

Tip: Each bay window is different - there is no one rule to measuring.

1

Curtains

If your pole or track is in place, simply follow our "how to measure for curtains" instructions. If you need to fit a pole or track before measuring please call us on 01686 449442 or 07779 479 452 for advice.

2

Roman and roller blinds

Measuring for Roman blinds or roller blinds to go in a bay can be quite complicated. You will need to deduct a certain amount from the width of each blind in order for them to move up and down properly.

We recommend that you email us at sales@newhome-furnishings.co.uk with your measurements and photos or call us on 01686 449442 or 07779 479452 for more advice.
